| Course Content :  |   |  |                    |
| Unit – 1: Morals, Values and Ethics - Integrity - work Ethic - Service Learning - Civic Virtue - Respect for others - Living peacefully - Caring - Sharing - Honesty - Courage - Valuing time - Co-operation - Commitment - Empathy - Self-Confidence - Character - Spirituality - The role of engineers in modern society - social expectations.   |   |  |                    |
| Unit – 2: Sense of 'Engineering Ethics' - Variety of moral issues - types of inquiry - moral dilemmas – moral autonomy - Kohlberg's theory - Gilligan's theory - Consensus and controversy - Models of Professional Roles & Professionalism - theories about right action - Self-interest - customs and religion - uses of ethical theories.  |   |  |                    |
| Unit – 3: Engineering as experimentation - engineers as responsible experimenters - Research ethics - Codes of ethics - Industrial Standard - Balanced outlook on law - the challenger case study.  |   |  |                    |
| Unit-4: Safety and risk - assessment of safety and risk - Riysis - Risk benefit analysis and reducing risk - Govt. Regulator's approach to risks - the Three mile island and Chernobyl case studies & Bhopal - Threat of Nuclear power, depletion of ozone, greenery effects - Collegiality and loyalty – respect for authority - collective bargaining - Confidentiality - conflicts of interest - occupation crime - professional rights - employees' rights - Intellectual Property rights (IPR) - discrimination. |   |  |                    |
| Unit – 5: Multinational corporations - Business ethics - Environmental ethics - computer  |   |  |                    |

## NATIONAL INSTITUTE OF TECHNOLOGY, TIRUCHIRAPPALLI

ethics - Role in Technological Development - Weapons development engineers as managers – consulting engineers - engineers as expert witnesses and advisors - Honesty - leadership - sample code of conduct ethics like ASME, ASCE, IEEE, Institution of Engineers (India), Indian Institute of Materials Management Institution of electronics and telecommunication engineers (IETE), India, etc.

### COURSE OUTCOMES:

Upon completion of the course, students will be able to:

- Understand the core values that shape the ethical behaviour of an engineer
- Have awareness on professional ethics and human values.
- Know their role in technological development.

### COURSE OBJECTIVES

1. Identify the core values that shape the ethical behavior of an engineer
2. To create an awareness on professional ethics and Human Values
3. To appreciate the rights of others

## COURSE PLAN – PART II

### COURSE OVERVIEW

Professionals work in a wide variety of settings and across many different industries including business, science, education, art, and public service. Many professions have Codes of Conduct that specify ethical behavior and expectations particular to that field. In addition, professionals must often make ethical judgments in their area of specialty that falls outside their specific Code of Conduct.

Professionals often need to apply moral reasoning to their interactions with co-workers, clients, and the general public. These resources offer insights that apply to a wide range of professionals as they seek to develop standards of ethical behavior in their careers.

This course aims to give exposure to the students with knowledge in the field of Professional Ethics.

### COURSE ASSESSMENT METHODS (shall range from 4 to 6)

| S.No. | Mode of Assessment                               | Week/Date                       | Duration | % Weightage |
|-------|--|---------------------------------|----------|-------------|
| 1     | Assessment – I (Written test)                    | 3rd week of Sep. 23             | 1 hour   | 20          |
| 2     | Assignment - I                                   | During regular hours            |          | 10          |
| 3     | Assessment – II (Written test)                   | 3rd week of Nov. 23             | 1 hour   | 20          |
| 4     | Assignment – II Seminar presentation by students | During regular hours            |          | 10          |
| CPA   | Compensation Assessment*                         | 1 <sup>st</sup> week of Dec. 23 | 1 hour   | 20          |
| 5     | Final Assessment *                               | 2 <sup>nd</sup> week of Dec. 23 | 3 hours  | 40          |

#### \*mandatory; refer to guidelines on page 4

- Exact date and time for the assessments (Sl. No. 1,3, 5 and CPA) will be informed later.
- Grading will be based on the clusters (range) of the total marks (all the assessments i.e., Assessment 1 to 4, put together for each student) scored. For grading, Gap theory or Normalized curve method will be used to decide the clusters (range) of the total marks.

#### COURSE EXIT SURVEY (mention the ways in which the feedback about the course shall be assessed)

Anonymous feedback through questionnaire.  
 Direct feedback from the students by having face-to-face meeting individually and as the class as a whole.  
 Feedback from the students during the class committee meetings.

#### COURSE POLICY (including compensation assessment to be specified)

##### MODE OF CORRESPONDENCE (email/ phone etc)

- All the correspondence (schedule of classes/ schedule of assessment/ course material/ any other information regarding this course) will be done through the class representative.
- Queries (if required) may be emailed to me / contact me immediately after the class hours for any clarifications.

**COMPENSATION ASSESSMENT**

If any student is not able to attend **Assessment-I** / Assessment-II due to genuine reason, he/she is permitted to attend the Compensation Assessment (CPA) with 20% weightage (20 marks). At any case, CPA will not be considered as an improvement test.

**ATTENDANCE POLICY** (A uniform attendance policy as specified below shall be followed)

- At least 75% attendance in each course is mandatory.
- A maximum of 10% shall be allowed under On Duty (OD) category.
- Students with less than 65% of attendance shall be prevented from writing the final assessment and shall be awarded 'V' grade.

**ACADEMIC DISHONESTY & PLAGIARISM**

- Possessing a mobile phone, carrying bits of paper, talking to other students, copying from others during an assessment will be treated as punishable dishonesty.
- Zero mark to be awarded for the offenders. For copying from another student, both students get the same penalty of zero mark.
- The departmental disciplinary committee including the course faculty member, PAC chairperson and the HoD, as members shall verify the facts of the malpractice and award the punishment if the student is found guilty. The report shall be submitted to the Academic office.
- The above policy against academic dishonesty shall be applicable for all the programmes.

**ADDITIONAL INFORMATION, IF ANY**

The students are advised to clarify their doubts can discuss during the lecture. Other than, for out-of-class discussion, the prior permission is required.

**FOR APPROVAL**
