Course Type	<input type="checkbox"/> Core course <input checked="" type="checkbox"/> Elective Course		

COURSE OVERVIEW

Employees as human beings, and not as cogs in a machine, occupy the central position around whom all material things revolve. The worker as a mental organism having flesh and blood and not as blind lifeless machine. This Course intends to give an eye opener for the students about Human Resource Management and its functions to develop the efficiency and effectiveness of the Human Resource in an organisation. In other words apart from Mechanical, Business factors, there exists a third factor in an industry that is the Human Factor.

COURSE OBJECTIVES

1. The recognition of the importance of Human Resource Management as a strategic business partner.
2. Corporations all over the world today recognize "People" and their "Competencies" as a strategic resource that gives Competitive Advantage.
3. To enhance performance of individuals through participation in decision making.
4. To provide a broader outlook with a framework for analysis of industrial relations problems.
5. To develop long-term solutions through various inputs, case studies that go into the Human Resource Problem and the control aspects is more oriented to a "here and now" situation to take care of the problems quickly.
6. To hone the Human Relations skill of the future incumbents of industrial organisations.
