

NATIONAL INSTITUTE OF TECHNOLOGY, TIRUCHIRAPPALLI

COURSE PLAN – CE611 TRAFFIC FLOW THEORY

BRANCH: CIVIL ENGINEERING

SPECIALIZATION: Transportation Engineering and Management

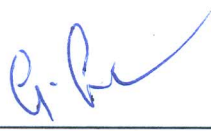

SEMESTER: II

| COURSE OUTLINE TEMPLATE | | | |
|---|--|-----------------------|------------------------------------|
| Course Title | TRAFFIC FLOW THEORY | | |
| Course Code | CE611 | No. of Credits | 3 |
| Department | Civil | Faculty | Dr. S. Moses Santhakumar |
| Pre-requisites Course Code | None | | |
| E-mail | <u>moses@nitt.edu</u> | Telephone No. | 9842450011 (M) 3155 (O) |
| Course Type | Elective course | | |
| COURSE OVERVIEW | | | |
| To understand the principles of ITS, and learn macroscopic and microscopic models of traffic flow theory. | | | |
| COURSE OBJECTIVES | | | |
| <ol style="list-style-type: none"> 1. To be introduced to traffic flow theory 2. To study macroscopic and microscopic modeling 3. To learn the fundamentals of ITS | | | |
| COURSE OUTCOMES (CO) | | | |
| Course Outcomes | Aligned Programme Outcomes (PO) | | |
| 1. Ability to analyze the traffic stream parameters | a b d | | |
| 2. Skill to apply the Microscopic and Macroscopic models | a b c e g i | | |
| 3. Capability to interpret the significance of ITS under Indian conditions | a b c e g i | | |

COURSE TEACHING AND LEARNING ACTIVITIES

| S.No. | Week | Topic | Mode of Delivery |
|-------|--------|--|--|
| 1. | Week 1 | <ul style="list-style-type: none"> • Syllabus and course content • Traffic stream parameters • Flow, speed and density | <ul style="list-style-type: none"> • Chalk and Board |
| 2. | Week 2 | <ul style="list-style-type: none"> • Fundamental diagram of volume-speed-density surface • Variation of the stream parameters • Discrete and continuous probability distributions | <ul style="list-style-type: none"> • Chalk and Board • Tutorials |
| 3. | Week 3 | <ul style="list-style-type: none"> • Merging manoeuvres • Critical gaps and lags • Probability distributions of gaps and lags | <ul style="list-style-type: none"> • Chalk and Board |
| 4. | Week 4 | <ul style="list-style-type: none"> • Macroscopic models • Heat flow analogy • Fluid flow analogy | <ul style="list-style-type: none"> • Chalk and Board |
| 5. | Week 5 | <ul style="list-style-type: none"> • Shock waves • Examples using u-k diagram • Bottleneck analysis | <ul style="list-style-type: none"> • Chalk and Board • Tutorials |
| 6. | Week 6 | <ul style="list-style-type: none"> • Microscopic models • Application of queuing theory • Queue definitions | <ul style="list-style-type: none"> • Chalk and Board |
| 7. | Week 7 | <ul style="list-style-type: none"> • Cycle Test I | |
| 8. | Week 8 | <ul style="list-style-type: none"> • Regular, random and Erlang arrival patterns • Service time distributions • Queue discipline and special cases | <ul style="list-style-type: none"> • Chalk and Board |
| 9. | Week 9 | <ul style="list-style-type: none"> • Waiting time in single channel queues • Practical applications - Problems • Extension to multiple channels | <ul style="list-style-type: none"> • Chalk and Board • Tutorials |

| | | | |
|-----|---------|--|--|
| 10. | Week 10 | <ul style="list-style-type: none"> • Linear car following models • Stimulus – Response equation • Determination of car following variables | <ul style="list-style-type: none"> • Chalk and Board |
| 11. | Week 11 | <ul style="list-style-type: none"> • Tracking of vehicle pair • Time slice method • Practical applications - Problems | <ul style="list-style-type: none"> • Chalk and Board • Tutorials |
| 12. | Week 12 | <ul style="list-style-type: none"> • Traffic stability – local and asymptotic • Non-linear car following models • Acceleration noise | <ul style="list-style-type: none"> • Chalk and Board |
| 13. | Week 13 | <ul style="list-style-type: none"> • Cycle Test II | |
| 14. | Week 14 | <ul style="list-style-type: none"> • Intelligent Transportation Systems • Geographical Information System principles • Global Positioning System principles | <ul style="list-style-type: none"> • PPT |
| 15. | Week 15 | <ul style="list-style-type: none"> • Area Traffic Control • Automatic Toll Collection • Smart Cards | <ul style="list-style-type: none"> • PPT |
| 16. | Week 16 | <ul style="list-style-type: none"> • Intelligent vehicle • Sensor technologies • Collision Detection System | <ul style="list-style-type: none"> • PPT |
| 17. | Week 17 | <ul style="list-style-type: none"> • Applications in developed countries • Intelligent Vehicle – Highway Systems • Applications under Indian countries | <ul style="list-style-type: none"> • PPT |

| COURSE ASSESSMENT METHODS | | | | |
|---|---------------------------|------------------------------------|-----------------|--------------------|
| S.No. | Mode of Assessment | Week/Date | Duration | % Weightage |
| 1. | Cycle Test 1 | Week 7 | 1 hour | 20 |
| 2. | Cycle Test 2 | Week 13 | 1 hour | 20 |
| 3. | Assignment 1 | Macroscopic models | | 5 |
| 4. | Assignment 2 | Intelligent Transportation Systems | | 5 |
| 5. | End Semester | Week 18 | 3 hours | 50 |
| ESSENTIAL READINGS : Textbooks, reference books Website addresses, journals, etc | | | | |
| 1. Drew, D.R., <i>Traffic Flow Theory and Control</i> , McGraw Hill., 1978. 2. TRB, <i>Traffic Flow Theory - A Monograph</i> , SR165, 1975. 3. Burrough P.A. and Rachel A. McDonell, <i>Principles of Geographical Information Systems</i> , Oxford Publication, 2004. 4. Sussman, J. M., <i>Perspective on ITS</i> , Artech House Publishers, 2005. | | | | |
| COURSE EXIT SURVEY (mention the ways in which the feedback about the course is assessed and indicate the attainment also) | | | | |
| It is proposed to take feedback from the students, at the end of the semester to evaluate the execution of the course. | | | | |
| COURSE POLICY (including plagiarism, academic honesty, attendance, etc.) | | | | |
| Attendance | | | | |
| <ul style="list-style-type: none"> The closing date of attendance for the subject is Week 17. 100% attendance is desirable for every student, with minimum attendance being 75%. | | | | |
| Grading | | | | |
| <ul style="list-style-type: none"> Grading will be done with normalized score. | | | | |
| ADDITIONAL COURSE INFORMATION | | | | |
| <ul style="list-style-type: none"> The Course Coordinator is available for consultation during office hours. Queries, if any, can also be emailed to the Course Coordinator directly at moses@nitt.edu. | | | | |
| FOR SENATE'S CONSIDERATION | | | | |
| <div style="display: flex; justify-content: space-between; align-items: flex-end; padding-top: 20px;"> <div style="text-align: center;"> <p>Course Faculty <u></u></p> </div> <div style="text-align: center;"> <p>CC-Chairperson <u></u></p> </div> <div style="text-align: center;"> <p>HOD <u></u></p> </div> </div> | | | | |
